

Curving Grades in D2L

You can really only apply grading curves to specific grade items, including the Final Grade, in D2L by creating a new "Grade Scheme." You can use the Grade Scheme to specify letter grades and their grade ranges. To access Grade Schemes, click Grades Schemes, located on the left side of your screen under the Grades Area menu.

Step 1: Create a New Grade Scheme

1. Click **Grades** on the main navigation bar.
2. In **Schemes**, click **New Scheme**.
3. Enter a **Name** for the scheme.
4. Next, choose a symbol type (e.g. A, B, C, etc.) and the corresponding grade range with the lowest value possible in the Start % column and the highest value possible in the Assigned Value % column.
5. Click **Save** to save your changes.

Once your grade scheme has been completed, you need to change the individual grade item's Grade Scheme in the Edit Grade Item screen, or to 'curve' final grades, in the Edit Calculated/Adjusted Final Grade screen.

Step 2: Curving a Grade Item or the Final Grade

Once you have created your Grade Scheme, follow the instructions below to apply it to selected grade items:

- 1) From the **Manage Grades** screen, click the title of the grade item you would like to edit.
- 2) Using the **Grade Scheme** dropdown menu, select the Grade Scheme you created.
- 3) Click Save to save your changes.
