

EMAIL TEMPLATE

Below you will find an email template that can be used to notify your students about the use of clickers in your classroom.

TIP

Send this email one to two (1 - 2) weeks prior to the start of classes.

Hello Students,

We will be using Turning Technologies clickers in our class this semester. Please purchase the following prior to the first day of class:

- **QT Device**
- Turning Account license

Visit the campus bookstore at uwm.ecampus.com to purchase the items listed above.

Log in to **D2L** and follow the links for Turning Technologies to create a Turning Account, and to register the clicker and license.

Please purchase the QT Device and Turning Account license, as well as create a Turning Account, by the first Friday of class.

I hope you have found this information helpful. If you have any questions, please let me know.

NOTE

Students will need a Turning Account License for the clicker hardware and for ResponseWare.
